Description

 Tripp Lite's USB to serial adapter enables a serial device to be connected to a computer through the USB port. Perfect for a PDA, digital camera, modem or ISDN terminal with a serial port. The adapter upgrades a traditional RS-232 serial port (DB9 male) to USB (a male). The unit features a portable design that does not require external power. A mini CD with drivers is included. Supports data transfer rates over 230 kbps. 17-in overall length. Retail box.

Applications

- Notebook and desktop computers

System Requirements

- Available USB port on the PC (it is recommended to connect adapter directly to the PC and not through a USB HUB).
- CD-ROM to load drivers from supplied CD onto PC

Package Includes

- USB to Serial Adapter USBA to DB9M
- Driver CD
- Instruction Manual

Features

- Connect a PDA, digital camera, modem or ISDN terminal to a computer through a USB port
- Upgrades a traditional RS-232 serial port to USB
