

## SmartRack Copper Bus Grounding Bar

MODEL NUMBER: SRGROUND

### Highlights

- Attach to rack enclosure cabinets or open frame racks to provide ground contact
- Heavy-gauge solid copper
- All hardware is included

### Package Includes

- SRGROUND Copper Bus Grounding Bar
- (21) Grounding straps
- (3) Mounting buttons
- (21) M4 screws
- (21) Washers
- Owners Manual

### Description

The SRGROUND is a full length (42U) bus grounding bar made from heavy-gauge solid copper that attaches to Rack Enclosure Cabinets or Open Frame Racks to provide convenient ground contact for standard rackmount equipment. Every other U space has a drilled and tapped hole to allow a ground wire "jumper" to be installed. The jumper then bridges to the individual pieces of equipment, with grounding straps, allowing a direct path to ground rather than going through surrounding equipment. The SRGROUND can mount in a Tripp Lite enclosure in two ways, it can be screwed into the Rack Enclosures (hardware included) or it can be installed using the tool less mounting buttons in the Open Frame Racks.

### Features

- Full length (42U) bus grounding bar made from heavy-gauge solid copper that attaches to Rack Enclosure Cabinets or Open Frame Racks to provide convenient ground contact for standard rackmount equipment
- Every other U space has a drilled and tapped hole to allow a ground wire "jumper" to be installed
- The jumper then bridges to the individual pieces of equipment, with grounding straps, allowing a direct path to ground rather than going through surrounding equipment
- Can mount in a Tripp Lite enclosure in two ways: it can be screwed into the Rack Enclosures (hardware included), or it can be installed using the tool less mounting buttons in the Open Frame Racks
