

Anti-static Foam Cleaner

For Glass and Plastic

Staticide®

Anti-static Foam Cleaner

ACL/STATICIDE's Anti-static Foam Cleaner For Glass & Plastic is specially formulated for general external cleaning of computer hardware, glass and plastic materials/machines in the office and home. Leaves no film while keeping equipment clean and static free.

The special Foam Cleaning formulation provides a safe, quick and unique way to clean computer equipment, fax machines, copy machines, TV screens, glass and plastic. Foam properties reduce the potential of moisture damage that can be caused by liquid cleaners. Anti-static properties help repel dirt and dust, keeping equipment cleaner longer. ACL/STATICIDE's Anti-static Foam Cleaner For Glass & Plastic decreases the number of cleanings needed on your home and office equipment, saving the user time and money.

For maximum results, use ACL/STATICIDE Lint Free Wipes #8044 or #LF-50.

NOT FOR USE ON ANTI-GLARE OR POLARIZED SCREEN FILTERS.
